QUICKIE® TI TITANIUM

QUICKIE®
MANUAL CHAIRS

The Quickie® Ti Titanium is the lightest wheelchair available anywhere, featuring the added strength, lightness, and shock absorption of titanium. The Ti Titanium is the ideal rigid chair for the active rider – the perfect balance of form, function and performance.

Quickie Ti Titanium Ultra-Lightweight Manual Rigid Wheelchair

The lightest, strongest, most adjustable titanium wheelchair you can ride

The Quickie Ti Titanium Ultra-Lightweight Wheelchair delivers advanced technology and precision engineering in a ***sleek, minimalist design.*** A complete chair with standard wheels can ***weigh as little as 16.9 pounds!*** Titanium – ***three times stronger than aluminum –*** makes it possible to build a lighter, simpler, more maneuverable frame with added shock absorption and superior torque strength.

To ensure the best possible fit, over 4,000 different frame configurations are offered with ***customization*** in six different aspects – frame angle, frame inset, front seat height, rear seat height, seat width and seat depth. ***A patented angle adjustable caster housing,*** along with ***center of gravity and camber adjustments,*** provide even greater flexibility, comfort and performance.

The Quickie Ti Titanium epitomizes the balance between design excellence and lifestyle options. The lightweight, open frame design and fold down back embody the Quickie Philosophy to ***Get Out There!***
